

ALMANIE K

+1 469 000 0000 | almanie.k@example.com | linkedin.com/in/almanie | Dallas, TX

SKILLS

Languages: Python, JavaScript, TypeScript, SQL, HTML/CSS

Frameworks: FastAPI, Next.js, React, Node.js, Express

Tools & Platforms: Git, REST APIs, JSON, AWS, FedNow, PostgreSQL

Libraries: Pandas, NumPy, Scikit-learn, ReportLab

EDUCATION

Singapore Management University — BS Information Systems | Expected 2026

PROJECTS

B2B Yield-Bearing Payment Infrastructure

Python · FastAPI · Next.js · React · REST APIs · AWS

- Developed a B2B platform enabling banks and fintechs to offer interest-bearing payment accounts through Treasury reserve yield pass-through
- Built yield calculation engine in Python with daily accrual, reconciliation divergence tracking, and tiered bps economics
- Implemented 8 REST API endpoints in FastAPI for account management, yield balances, dispute tracking, alerts, rate discrepancy monitoring, portfolio forecasting, and regulatory reporting (1099-INT, unclaimed property)
- Designed US Sponsor Bank regulatory pathway (3-6 months, \$50-200K/year) and EU EMI Partnership with 27-state MiCA passporting
- Quantified reconciliation gap: FloatYield's simple interest (/365) vs Treasury's actual/actual accrual at ~90 bps/year on \$1B deposit book
- Conducted unit economics red team: Year 3 at 50 bps on \$1.5B ADB yields \$7.5M revenue, \$1.35M reconciliation liability, 5.6× coverage ratio
- Identified capital sequencing risk: ILC charter requires 18-24 months vs Year 1 revenue runway gap
- Produced 12-slide HTML pitch deck and FloatYield_Report.md covering market analysis, regulatory framework, and go-to-market strategy

Travel Aggregator

Python · REST APIs · JSON

- Built a travel deal aggregation tool that scrapes and filters flight and hotel offers from multiple OTAs

Employee Directory

React · Node.js

- Developed an interactive employee directory with search and filtering capabilities

Property Management

SQL · JavaScript

- Built a property management system with tenant tracking and lease management features
